Business PC featuring security, durability and IT-accessible design

POWERFUL PC PERFORMANCE

Discover a new world of mobile computing with Intel® Centrino® processor technology – the latest innovation from Intel®. Faster and more efficient than ever, the next-generation Intel® Core™ 2 Duo P8600 processor (2.40GHz[1]) turns up the speed on multi-tasking while curbing energy consumption.

The VAIO® BZ notebook comes pre-installed with Genuine Microsoft® Windows XP Professional with Vista® Business recovery media included.

Offering a massive boost in wireless connection speed and range, work and play quicker almost anywhere within your office or home using next-generation 802.11n integrated wireless LAN technology[3] .

COMPATIBILITY AND ACCESSIBILITY

Sony knows that efficient and accessible PC design is critical to keeping your employees up and running. With the VAIO® BZ notebook, frequent IT activities such as RAM upgrades, swapping out the optical drive, accessing the hard drive and detaching the keyboard are quick and easy to do.

The VAIO® BZ notebook has a reduced amount of pre-loaded software for improved compatibility and IT peace of mind. With less pre-loaded software, IT personnel can more quickly set up and image the notebook.

Keeping the technical needs of your business in mind, the VAIO® BZ notebook offers BIOS level control for IT administrators over inputs and outputs such as Ethernet, USB ports and Memory card / SD card slots to name a few.

BUSINESS-GRADE DURABILITY

Not only designed for a comfortable touch and feel, the full-sized keyboard on the VAIO® BZ notebook features a spill-resistant panel to protect the computer's internal components against accidental spills.

Hit the road with confidence. The VAIO® BZ notebook is constructed with a stylish yet durable and lightweight magnesium alloy chassis to protect against the everyday knocks and bumps encountered frequently in travel.

G-Sensor™ Shock Protection technology[17] makes your data even less vulnerable to loss or damage. When the built-in 3D acceleration sensor detects a risky movement, the HDD-head will lock up to secure its position and help protect the disc from scratching.

SERIOUS SECURITY

A built-in biometric fingerprint scanner makes authentication and secure access quickand easy; you only need your fingerprint.

An integrated Trusted Platform Module (TPM) TCG Ver.1.2 compliant chip enhances security by allowing you to control access on a specific client / user basis.

Built for business, the lightweight VAIO® BZ notebook boasts the productivity and compatibility features required by IT professionals and business customers. Magnesium casing and a spill-resistant keyboard panel help protect against the accidents common to travel while next-gen Intel® Centrino® processor technology provides the power necessary for heavy day-in day –out computing.
